

Impact Report

A MESSAGE FROM OUR FOUNDER

An impact report is a way for organizations to communicate the issues they are trying to improve, as well as their strategy on how they facilitated change. It measures the impact that NFPs make in people's lives, focusing on their social or environmental outcome.

A YEAR WITH UNIQUE CHALLENGES

Impact reports cater to a variety of audiences, so it's best to adjust it accordingly. First, identify your target reader. Next, you can shift your focus on what they need to know. For example, your future plans are in the interest of your beneficiaries.

Some readers might prefer details like a breakdown of your funding while others, like your trustees, will be more interested in the challenges you encountered.
